

■ 40,000 PSI AQUA MISER UNITS ■

AQUA MISER ULTRA BOSS

**Model E-75
Electric Motor
Driven**

- **Patented B.O.S.S.® Abrasive Injection System**

The system pressure feeds any abrasive media to achieve a multitude of blasting specifications. Achieve a white metal finish, profile new steel, prepare concrete, or simply degrease and clean.

The ULTRA BOSS can use traditional abrasives for high strip rates or water soluble abrasives for low environmental impact and delicate blasting requirements.

- **Pneumatic Remote Control System**

The pump and motor are only fully engaged when the trigger is pulled. This uses less electricity, causes less wear and tear, and eliminates expensive tumble boxes, dump valves and unloaders.

- **Triplex Plunger Water Pump**

The pump provides ultra high pressure (up to 40,000 psi) while using a low volume of water (3 gpm). This means less operator fatigue, less water to contain and dispose, and less inlet water required (just a garden hose for feed water).

**Low Maintenance Ultra High Pressure Pump
Abrasive Injection to Enhance Strip Rates (optional)
Remote Start/Stop Pump Control
Small Compact Modular Design - The E-75 requires minimal floor space and allows the abrasive section to be placed away from the pump.**

**Model D-115
Diesel Engine
Driven**

**Abrasive Injection To Enhance Strip Rates
Remote Start/Stop Pump Control
Low Maintenance, Ultra High Pressure Pump**
