

Bulk Blaster Upgrades

Improved safety measures, easier transportation, easier operation, NO extra cost

A product of Axxiom Manufacturing, Inc.

Constant innovation and design improvements are why Schmidt airblast equipment has a worldwide reputation for quality.

Our newest bulk blaster upgrades:

- HALOK closure is easier to use
- New operators can reinstall manway covers with ease
- Enhanced safety features included for operator protection
- Reconfigured and redesigned features provide better transportation

SCHMIDT[®]

800-231-2085 SchmidtAbrasiveBlasting.com

New Standard Features

- The HALOK® is easier to use than ever with new cam-lock handle extensions (patent pending).

- New Manway Stay Brackets (patent pending) allow operators to more easily secure and fasten the manway into place.

- Anti-slip twisted rungs on the Schmidt Ergo-Ladder (patent pending) give a firm foothold in the worst conditions.

- Schmidt Grit Suppression Valve (patent pending) replaces Y-strainers to help reduce abrasive backflow
- New air inlet ball valve with lock-out adds an additional level of security.
- Reconfigured piping helps protect the control valve system
- Bulk rack pipe stubs are now standard, so blasting abrasive is always secure.
- Four new shipping tie down lugs allow easier securing for shipment
- Redesigned lift lugs allow four-point lifting
